

IPA-free solutions for heatset and sheet-fed printing

PRODUCT BROCHURE

Discover the difference Fujifilm can make to your print process.

DS IS A FUJIFILM BRAND

A total solutions provider

Reduced production cost

Optimised productivity

Excellent print quality

Reduced environmental footprint

Do you want to go IPA-free?

Of course you do! But without making any compromise to your print performance.

Today, your environmental impact is becoming a critical issue and therefore the reduction or - even better - the elimination of IPA from the print process is an important step. Fujifilm can support you with many years of experience and with fountain solutions which run on minimum IPA levels, while maintaining fast start-up, stable ink-water balance, minimised ink feedback or cording. Our high performance founts meet tight environmental regulations and are also OEM approved to make sure that your printing press is well protected.

Find out more about IPA-elimination for heatset and sheet-fed printing.

	Dosage (%)	Conventional ink	UV Hybride ink	Continuous forms	Properties	
SHEET-FED						
ACEDIN PLANO 4105	3 - 4	x	x		Especially suited to metallic inks	
ACEDIN PLANO 4104 ECOdry	3 - 4	x		x	Contains cobalt-free drying agent	
ACEDIN D 1989	3 - 4	x	x	x	Suitable for all water qualities	
ACEDIN PLANO 4112	3 - 4	x	x		For medium to hard water, reduced ink feed back	
HEATSET						
ACEDIN HEAT 5000	3 - 4				For all dampening systems	
ACEDIN HEAT 6200	3 - 4				Reduced piling, extended washing intervals	
ACEDIN HEAT 6400	3 - 4				For use with Brillia HD PRO-V and unbaked plates	
ACEDIN HEAT 6200 H	3 - 4				Strong buffer capacity, suited to hard water	
RECOMMENDED AUXILIARIES						
SYSTEMCLEANER 1397					Cleaning concentrate for the dampening water circuit	
FOUNTCONTROL					Monitoring kit for the fountain concentration	
CONDISAL HP					Rehardener for RO water	
DAMPWASH					Degreasing cleaner for the dampening rollers	
REVIVAL GEL					Glaze remover for rollers and blankets	
ECODRY					Cobalt-free drying stimulator, to be mixed with the sheet-fed fount	
PRO RUN					Additive for heatset fountain solutions to drastically reduce piling and increase run length
